Stock Plan Packages

"The fast track to getting plans drawn"

You own the Plans:

Beyond Basics Drafting & Design has created, for the builder, a way to buy a library of buildable plans that they can call their own. Over the last 30 yrs Beyond Basics has drawn 1000's of plans and now they offer over 300 of the best plans for the residential building industry. You will be dealing directly with Beyond Basics giving you a smooth transfer of plan files, web designs and software that you will use to make changes on your own.

You own the Website:

Included in your package we will supply you your own website which will include your personal company logos, contacts and information. You will choose your web name. Hosting fees are included for the 1st year. Our web designer will have your site up and running in weeks. In the end your site will mirror our site with the same simple filters for you & your customer to navigate through.

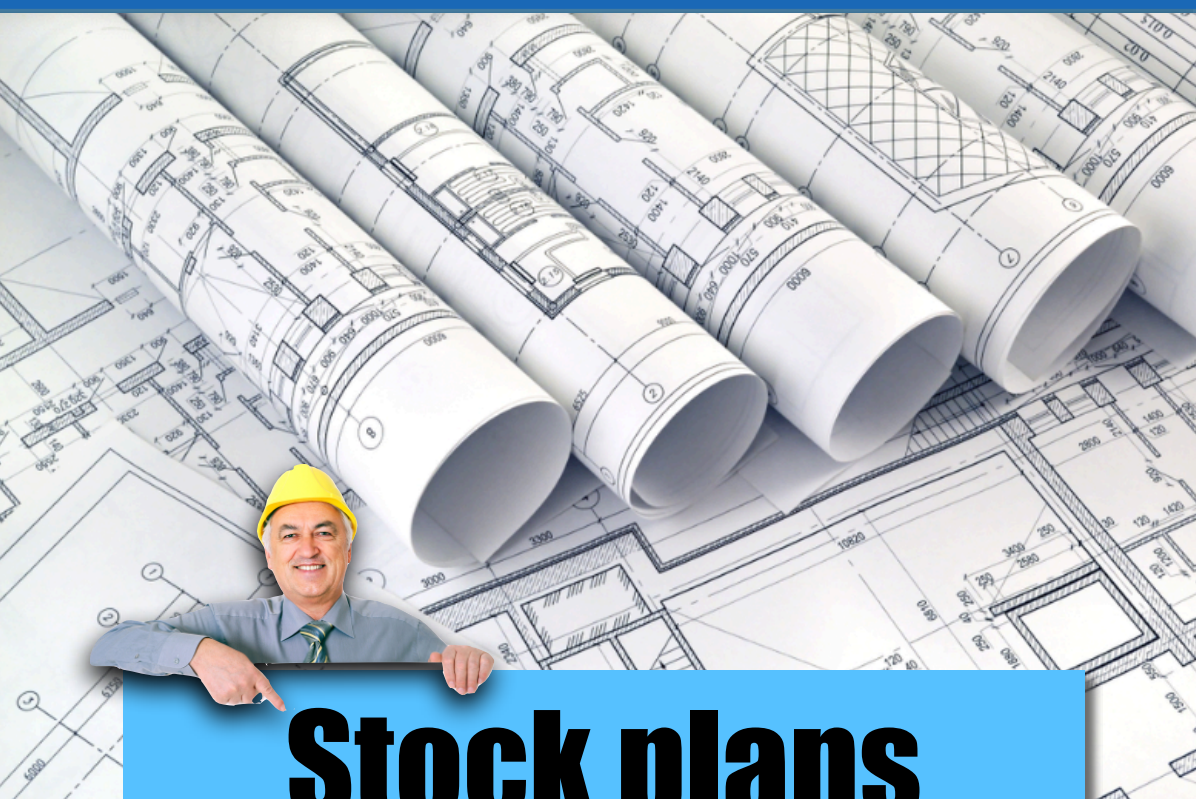

You own the Software:

All of our plans can be used as a the PDF version. Customer info and your info can be added with basic PDF tools. If you choose to alter any of our plans we supply a powerful easy to use software (Microspot Macdraft) for your Mac or PC. It comes with easy to use drag and drop libraries designed by Beyond Basics for quick changes on any of your stock plans you purchase.

Stock plans

Beyond Basics Drafting & Design own our plans, that's why we can sell our plans at special package pricing for contractors and builders.

Every plan you purchase becomes your own plan. You are buying the plan direct from the designer so no single build license, resale penalties or copy limitations will ever apply.

Each stock plan comes with a CAD drawing file, PDF version and an 8x11 quick review plan for your customer to review.

Included with each Package

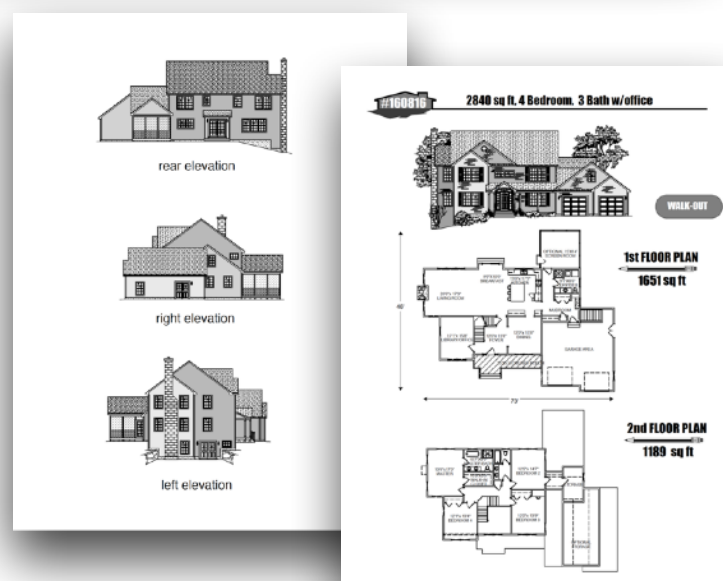

INCLUDED:

1/4" scaled full sets of plans. These complete plans include elevations, floor plans, foundation and sectional views ready for permits and building. They come as a PDF along with a MacDraft CAD version making changes fast and easy.

INCLUDED:

8x11 marketing brochures for each plan that show the right information for your customers to choose a plan. Comes in PDF and MacDraft CAD

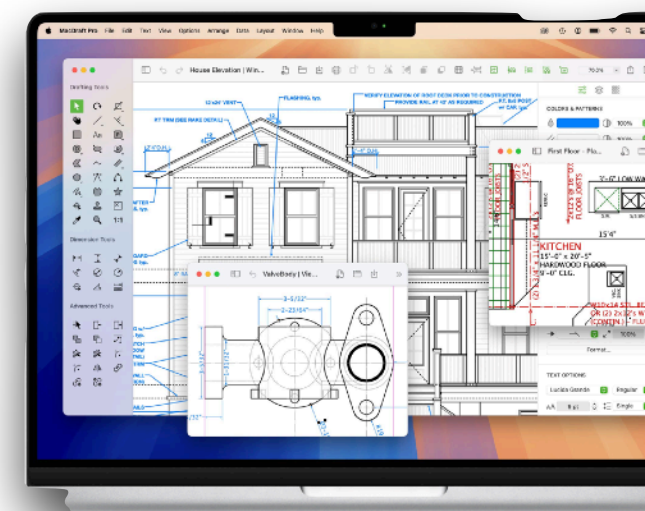

INCLUDED:

We create a website personalized to your company or have it integrated into your existing one. We use Beyond Basics existing site, remove our info and pricing and set you up with your own website that will give you that custom builder look. Each package includes one year hosting and domain name purchase.

INCLUDED:

We also supply a powerful easy to use software (Microspot Macdraft) for your Mac or PC. It comes with easy to use drag and drop libraries designed by Beyond Basics for quick changes on any of the stock plans purchased. Microspot offers free technical support and you license is good for life.
